DYNIMATED

www.dynimated.net

Esteemed Officials,

Dynimated Innovation Hub is a unique place and first of its kind space in the world! Innovention is a collaborative initiative bringing together Dynimated Brand, Italy, and DYND Innovention Hub (IH), Kochi, with the goal of establishing Kerala as a global leader in research, innovation, and futuristic technologies. It's a place to collaborate, partner, volunteer to ideate, imagine, create & showcase concepts and creations ahead of its time. And the greatest thing it's an open-source model managed and operated by two Foundations.

Vision 2050 powered by Kxan Holo Foundation & Mission 2050 organized by Aimwel Foundation will usher Kerala into a new age of advancement and a giant leap into the unexplored frontiers of the future. After establishing our first base and prototype in Kochi, Kerala and at the cusp of its launch, we are announcing our Phase II extension & Phase III expansion.

It is going to be way more advanced than the Dynimated Innovention Hub, where our partners & associates from all across the globe will participate, invest, and co-develop a dream and a vision from 2050.

I present to you Dynimated Design District, also called Dcube #Kochi.

Key Focus Areas:

1. R&D investment to drive innovation.
2. The organization supports inventors along with entrepreneurs through the development of innovative business partnerships.
3. Education in STEAM, sustainability, and social justice.
4. Balanced economic growth and environmental sustainability.
5. Encouraging innovation, trust, and collaboration.

Dynimated: The Pioneer brand

The Italian brand Dynimated operates globally through its Visual Communication, Futurism, Holography, Spatial Design & Engineering, and Futuristic Media divisions. Kxan Technologies Pvt. Ltd functions as the representative of Dynimated in India. The organization uses international alliances to achieve worldwide solutions.

DYND Innovention Hub (IH), Kochi

The IH in Kochi serves as a Phygital (Physical and digital) property that welcomes researchers developers, innovation experts along with artistic creators to co-create new concepts within its space. Members of the institution can demonstrate their projects by organizing events as well as conducting workshops and putting on exhibitions. IH also functions as a Museum of Futurism and Space.

Kxan Holo Foundation

Our nonprofit organization dedicated to blockchain and quantum computing together with holography, AR, and AI aims to conduct research and development to serve industries and technological growth worldwide.

Aimwell Foundation

Since its 2008 establishment Aimwell Foundation provides its members with an open-source platform and physical facilities located at IH. Through partnership the organization supports a self-driven economic system that connects creative activities with economic growth.

Upcoming Events

- 1. Invest Kerala Global Summit 2025 (Feb 22, Lulu International Convention Centre, Kochi) -** Showcasing DYND Design District, Quad Technology, and holography and holography for future of visual communication and infrastructural development.
- 2. Innovention - The Future of Innovation and Invention (Feb 28, DYND hub, Kochi)**
- 3. Andrometa Retro-cyberpunk electronic music event (March) -** Featuring futuristic multimedia experiences.

From march onwards, we will also be opening the museum of futurism, time and space. Monthly workshops and exhibitions on holography, space exploration, and digital innovation.

Commitment to Intellectual Property Protection

Dynimated places intellectual work protection as its main priority which maintains the integrity and security of its innovations as well as its partnerships and collaborative work.

Kerala has the potential to become a global center for research and technology. Kxan Holo Foundation, and Aimwell Foundation provide the infrastructure to support economic growth, technological progress, and global collaboration. We invite officials, investors, and innovators to be part of these landmark events. For any inquiries regarding partnerships, collaborations, or event participation, please contact us:
